

HDF Series Flat Screen Colour CRT Monitors

Like the H series this high resolution colour CRT monitor series comes with built-in Combo colour filter, video loop output, OSD functionality and NTSC / PAL auto switching. This high-performance flat screen monitor is designed with advanced colour processing for enhanced colour purity and transition. The HD series offers up to 450 lines of resolution (PAL) and allows the user to adjust the picture's sharpness, contrast, brightness, colour and tint through a user-friendly OSD interface to maximize picture quality. These professional monitors are ideal for an optimal viewing distance of six feet (1.8m) or less and provide outstanding colour reproduction for security and surveillance applications where video quality cannot be compromised.
